

Sports Program 2017

Sport is a compulsory and important aspect of schooling at Bishop DrUITT College. It provides students with the opportunity to participate in a wide variety of different sports and activities over the year. All activities are fully supervised by qualified staff and, where necessary, additional instructors and coaches.

Water-based activities are assessed on weather conditions and student ability levels, and are then adjusted accordingly. There are no water-based activities that are unstructured or unsupervised.

Terms 1&4

Students will have the option of several sports that are land-based and water-based. Students make their choices online toward the end of Term 4 2016. Information about sports and associated costs is provided below.

Terms 2&3

For years 7&8 these sports will be set and will be either gender-based or house-based. Students will rotate through several different activities. Years 9&10 can choose from a range of recreational sports, or become involved in representative sports.

Billing procedure

Please note that ALL sports with associated costs will be billed for the whole term. Wet weather sport will be taken into account and alternative sports will occur where possible. There will be no refunds for absences except under special circumstances over a prolonged period. This action is to secure bookings and venues, and for ease of payments with relation to accounting. The cost for sport each term is listed below.

If your child cannot participate in sport due to illness or injury they will still be required to attend that sport (with a note). Alternative activities will occur. Students will not be excused to do homework or leave school grounds.

Monday sport information

When

Monday Sport is on after Period 3 and goes from 11.50am-1.40pm. Students get changed, if needed, at recess so they are ready to go straight from Period 3 to sport.

Buses

Information regarding the buses that students need to catch will be published around the college. Students will take the same bus in the same place each week of their particular sport.

Uniform

Students must have the full, correct sports uniform. This includes hat and correct sport shoes. For water activities this will mean swimmers, thongs and towel. If students do not have the correct uniform they may still attend the sport depending on the activity, and will be required to assist with the sport.

Rolls

Each student's name will be on the roll for their chosen or assigned sport and they cannot change without seeing Ms Reinhold. Changes are only possible in the 1st week of Terms 1 and 4. Students must return a completed 'change of sport' form available from the secondary office foyer with a parent signature, before the change is effective.

Injured/sick note

If a student is sick or has an injury they must bring a note on the day. The student may still attend sport and assist with activities, if possible. If the student has an ongoing medical condition, a medical certificate must be provided.

Wet weather

In the event of wet weather, students should assume that sport is ON. Alternative sports will be organised if it is too wet for certain sport to go ahead.

Please direct any questions see Ms Reinhold in the PDH/PE office in the Branson Centre.
