A number of full and partial STEM Scholarships are available to new students who wish to complete their HSC at Bishop Druitt College and who wish to pursue further studies in a STEM-related field.

Demonstrated high achievement in Year 10 Mathematics and Science and a strong school report are prerequisites for this award. It is expected that recipients will study Mathematics Extension 1 and 2 in combination with one or more of the college's science, engineering and technology-based subjects, including in their HSC year.

Students who would make a positive contribution to the BDC community and who wish to study STEM subjects at the highest level are encouraged to apply. This scholarship is aimed at students who wish to pursue future studies and a career in a STEM-related field.

Specific conditions considered in the annual review include the following:

- Students are expected to participate in and achieve ongoing high standards in STEM subjects, as at the time of entry.
- Students are expected to support STEM-related clubs and competitions, and mentor other students in this field of study.
